EXAMINER'S COMMENT

Information Disclosure Statement

1. Portions of the information disclosure statement filed February 23, 2006, which consolidates all of the previous information disclosure statements that have not yet been considered, fail to comply with the provisions of 37 CFR 1.97, 1.98 and MPEP § 609 because:

- (A) the U.S. Patents and Publications are not in accordance with 37 CFR 1.98(a)(1), because they must be in a separate section from other references, i.e., the five unpublished U.S. applications.
- (B) the reference JP 59111533 is not in accordance with 37 CFR 1.98(a)(3)(i). It has no proper concise explanation of relevance because the English language abstract has been translated in a manner replete with errors to the extent that it is confusing and cannot be properly understood.
- (C) for the five unpublished U.S. applications, other information including office actions, affidavits, etc. that demonstrate the relevance of the disclosures may be required. Note MPEP 609.01 (B)(2)(d).
- (D) the reference WO 01/15718 is not relevant.
- (E) the cited publication "What is HART" by Bowden is not in accordance with 37 CFR 1.98(a)(1) because it has not been listed on any IDS.

Some of the information referred to therein has been considered as to the merits, as being properly submitted in accordance with the provisions of 37 CFR 1.97, 1.98 and

MPEP § 609. Applicant is advised that the date of any re-submission of any item of information contained in this information disclosure statement or the submission of any missing element(s) will be the date of submission for purposes of determining compliance with the requirements based on the time of filing the statement, including all certification requirements for statements under 37 CFR 1.97(e). See MPEP § 609.05(a).

2. Regarding the petition decision of April 17, 2006, it is hereby noted that the Notice of Allowance was remailed on 5 July, 2005, but not by the examiner, as the petition decision suggests.
